

Storyplaces Cheat Sheet

1. Create a story

Go to the **My Stories** tab from the main toolbar, Click on  at the bottom left corner of the main page. Fill out the details of your story in the window that appears and click at the  bottom left side of the page.

2. Enter Demo Mode

Go to the **Settings** tab from the main toolbar and tick the **Demo Mode** checkbox. That will allow you to navigate anywhere on the map and select locations manually.

3. Create a page

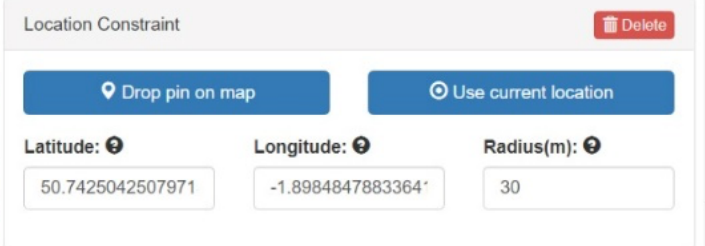

Go to the **Pages** tab of your story editor and click on  at the bottom left side of the window. On the new window fill out the details of your page, and click  at the bottom left side of the window.

4. Create a chapter

Go to the **Chapters** tab of your story editor and click on  at the bottom left side of the window. On the new window fill out the details of your page, and click  at the bottom left side of the window.

5. Add location constraint to a page

Edit the page you wish to add a location constraint to, and navigate to the **Location Constraint** section. Click  and input the location you wish, either by selecting to record your current location, manually pinning a location on the map or by manually entering coordinates.

The screenshot shows a dialog box titled "Location Constraint" with a "Delete" button in the top right corner. It contains two main buttons: "Drop pin on map" and "Use current location". Below these are three input fields: "Latitude" with the value "50.7425042507971", "Longitude" with the value "-1.8984847883364", and "Radius(m)" with the value "30". Each input field has a small circular icon to its left.

6. Add an image to a page

Edit the page you wish to add the image to, and navigate to the **Page Details** section. Click on the box under **Page image** and then on  to locate an image on your machine and upload it.

7. Add an audio clip to a page

Edit the page you wish to add the audio clip to, and navigate to the **Page Details** section. Under **Page audio clip** click  to locate an audio clip on your machine and upload it.

8. Add conditions to a page

Edit the page you wish to add the condition to and navigate to the **Advanced options** section. In either the **Conditions** or **Functions** text box, start typing your condition or function.

9. Create your own variables, conditions functions, or locations

Go to the **Advanced** tab of your editor and navigate to the section of the feature you want to create. Click on the  right bottom side of each section and fill out the appropriate details according to the feature you are trying to create.

10. Amend story details and test your story

Go to the **Details tab** on your story editor and amend details as you like. Click on the  bottom left corner of the window to save your changes.

Test your story by navigating to the **Publish Story** section of the **Details tab** and clicking on

 . To test your story remotely, enter **Demo Mode**. To enter **Demo Mode** see instruction 2.

*Remember to click  every time you make a change in a chapter, a page, the story details or whenever you amend features in the advanced settings.
